

CHANGING THE WAY YOU TEACH MUSIC

**A Master of Arts degree in music
designed for music educators!**

Join other music educators for a music experience at Radford University, and complete a Master of Arts degree in music while working fulltime.

Immerse yourself in the most innovative classroom techniques and teaching skills designed specifically for music teachers. We provide a relaxed atmosphere where individualized instruction means you get the most out of our prestigious music faculty.

Many courses provide one-on-one interaction with faculty and other students using online discussion forums. Some courses include short residential sessions on campus. Our summer-intensive curriculum is designed to accommodate busy fall and spring schedules by offering most courses during the summer. You then take one course in the fall and one course in the spring that use online discussion forums to complete your degree in as little as 2½ years. Our Master of Arts degree in music provides advanced graduate study for musicians and music scholars in preparation for professional careers or doctoral study.

SEMINAR IN MUSIC EDUCATION

MUSC 691-01 Course Index: 7010

Instructor: R. Wayne Gallops, Ph.D.

2 graduate credit hours

3 graduate credit hours with online component

June 18–21, 2012

Monday through Thursday, 9 a.m.–1 p.m.

The seminar will focus on instrumental score study and conducting techniques applicable to public school band and orchestra directors. Conductor-initiated curricular models that enhance the performance ability of secondary instrumental music students will be explored. Three-credit option requires an additional online component.
